NCC advised that the consultation deadline for submitting comments was 7<sup>th</sup> January 2019, though our comments will be taken into consideration when drafting the final report for decision, it would not be the intention to respond to individuals. In the past costs

undertaken for traffic management for events have been met by the NCC Highway maintenance budget. Due to financial pressures NCC will now have to prioritise financial resources, and recover costs for events/road closures.

(ii) **Car Parking Charges at Morpeth Railway Station:**

NCC advised that the consultation deadline on the car parking charges was 7<sup>th</sup> January 2019, NCC are evaluating the responses received and MTC comments will be taken in to consideration. The report and final decisions will be widely communicated in due course.

Items referred from F&amp;GP Committee - Community Action Plan- Environment Comprehensive Tree Strategy</li> <li>3. Items referred from F&amp;GP Committee - Community Action Plan- Resources – S106 Discussions</li> </ol>	<p>The Deputy Clerk gave an update from NCC on these issues raised previously.</p> <p>NCC recognised that the loss of senior staff and a struggle to recruit new staff had impacted on individual's workloads. The new director of planning will be informed of our concerns, and will look for ways to improve response times.</p> <ol style="list-style-type: none"> <li>1. NCC confirmed that the MNP does hold weight and is referred to when considering applications. However, planning decisions are made on reasons to object and not on number of houses. The optimum number of houses for development is an aspiration and not a constraint.</li> <li>2. The lack of response regarding the request for guidance on trees in new developments was likely due to the reduction in staff numbers and consequent increase of workload.</li> <li>3. NCC confirmed that existing protocol of 3-way discussions regarding S106 requirements does not mean there should not be discussions with the Town Council. The S106 requirements should be based on a need to have rather than a nice to have basis as this leaves it open for the developer to argue the case against the requirements. Consideration will be given to the S106 matrix submitted by MTC.</li> </ol> <p>The issue regarding the level of affordable housing in Morpeth and the lack of information was addressed. NCC will arrange for a package of information to be issued to MTC on a quarterly basis.</p>	<ol style="list-style-type: none"> <li>a. Information duly noted.</li> <li>b. Ask NCC if the original response to the weight of the MNP can be publicised on the MTC website.</li> <li>c. Ask NCC if they would be willing to meet with MTC to discuss S106 requirements on a regular basis.</li> </ol>
