Professor Andrew Hamnet addressed the committee regarding planning application 19/01298/FUL – St Georges United Reformed Church, Bridge Street, Morpeth. He provided a history of the church and reasons why he supported the application, including:

- During the Victorian period, the thick doors were used to keep members of the public separate from members of the church;
- Following World War II the community and the church forged a better relationship;

- In the 1960s the hall was created on the first floor to accommodate events held by none members of the church;
- The new glass doors would provide a more open and inviting entrance to members of the public and also let in natural light;
- Other churches in the area have changed to glass doors and are experiencing an increase in footfall.

Professor Hamnet left the meeting at 6:46pm.

Members unanimously agreed to bring forward item 9 (i) planning list for w/c 3rd June 2019 **19/01298/FUL – St Georges United Reformed Church, Bridge Street, Morpeth**

Cllr Byard arrived at 6:54pm

Cllr J Tebbutt raised concerns regarding potential fire, health and safety issues with the alterations to the front lobby, as Prof Hamnet confirmed that the number of available seats would not change.

Cllr Best advised that the church sits on the edge of the Conservation Area and until the Conservation Area Appraisal is complete we cannot comment as to what affect the change would have on the character of the area. As the proposal is similar to that of the doors at the Town Hall and the Chantry he would support this application.

Cllr Gebhard suggested that as the church is more prominent than the Town Hall and the Chantry it would not fit with the aesthetic of that area of the town. He also raised concerns that the glass doors could be used for advertising and light pollution may become an issue depending on how late the church is open.

Cllr Byard advised members that the Conservation Officer was strongly against the planning application. She also believes that the wooden doors are more in keeping with the surrounding area.

Cllr A Tebbutt suggested that the decision of the Conservation Officer should be supported.

RESOLVED
